I spoke to Sheryl last week and she is interested in looking into the zoning on some of the City's park properties. They need review. Properties that need rezoning can be done through our current rezoning process and then converted as appropriate to the new zones. Other thoughts?

Amy

Amy

I check the proposed zoning and the existing zoning on our parks. It appears we may need to do some rezonings for several properties. Please take a look at the spreadsheet to give me your thoughts.

Thank you!

Sheryl

Will the City have to fill out individual applications for all of these or can they go under one application? If they can go together we could do them by sector to make it more manageable.

All in one application will work. Do you know when they will be applying?

Thanks

I'll be glad to work on this. It's a bit tricky trying to decipher exactly what Sheryl was getting at with her spreadsheet. She's got a number of "free form" comments on the far right and I can start with those. Then does she want us to look at anything that's not zoned OS, NA, OS-1, OS-2, etc? Amy, I think a brief 5 minutes pow-wow would be very helpful. I should be at my desk most of the day except for 3 to 4-ish when we have a meeting with Todd Napier.

This is not a priority. I talked to Sheryl this morning and it can wait until after the adoption of the updated zoning ordinance and map. Proposing these map changes to the draft zoning map at this late hour will only result in more discussion and delay.
